Description

This 2026 Skoda Kamiq TSI SE Edition represents a nearly new vehicle, having covered only 6 miles from its single owner. As a recent model, it comes with a full service history, ensuring that its maintenance records are complete and up to date. This compact SUV combines the reliability expected of the brand with the peace of mind that comes from such minimal usage, making it a practical choice for those seeking a vehicle that is essentially in showroom condition. The vehicle is designed for efficiency and convenience, featuring a 1.0L petrol engine that achieves 51 mpg and meets Euro 6 emission standards, which also contributes to its low CO2 output. Practicality is enhanced by a range of useful technology, including full LED headlights with automatic control and a coming and leaving home feature for better visibility. Inside, the dual zone climate control maintains a comfortable cabin temperature, while Bluetooth connectivity allows for easy communication on the move. Parking is made simpler with the inclusion of rear parking sensors, providing extra assistance when manoeuvring in tight spaces.
