Description

This 2026 Volkswagen Golf TSI eHybrid Style is a well-maintained vehicle that has had only one owner from new. As a Volkswagen manufacturer approved car, it comes with the reassurance of a full dealership service history. To ensure peace of mind for the next driver, the vehicle includes a 24-month warranty and will be supplied with a fresh 12-month MOT upon purchase. This plug-in hybrid model is powered by a 1.5-litre petrol engine and meets Euro 6 emission standards, making it a modern and efficient choice for daily driving. The driving experience is enhanced by a 0-60mph acceleration time of 6.7 seconds, offering responsive performance that sets it apart from many standard hybrid models. Comfort is prioritised through the Air Care Climatronic 3-zone climate control system, which includes a dedicated rear air conditioning panel for passengers. Visibility is managed by advanced LED performance headlamps, featuring automatic headlight control, separate daytime running lights, and a convenient coming home and leaving home function. Practicality is further supported by a

mobile phone interface that includes wireless inductive charging, ensuring your devices remain powered without the need for cables.
