Description

This 2026 Volkswagen ID.4 Pro Match is a fully electric vehicle that has been maintained with a full dealership service history. As a Volkswagen manufacturer approved vehicle, it offers peace of mind and comes with a 24-month warranty, alongside a 12-month MOT provided upon purchase. Having had only one owner from new, this example has covered a very low mileage of 2,852 miles, ensuring it remains in excellent condition for its next driver. The ID.4 Pro Match is designed for practicality and performance, featuring a spacious boot that provides ample room for luggage and daily essentials. It offers an impressive 347-mile range from its 82 kWh battery, which can be charged from empty to 80% in just 32 minutes at a fast public charger. Drivers can enjoy a responsive experience with acceleration from 0-60mph in 6.3 seconds. The vehicle is well-equipped with modern technology, including adaptive cruise control, a rear-view camera, and heated front seats. Visibility and comfort are further enhanced by matrix LED headlights with automatic control and a heated, leatherette-wrapped multi-function steering wheel with touch controls.
