Description

This 2026 Volkswagen ID.7 Pro Match Plus is an electric vehicle that has been maintained with a full dealership service history and has had only one owner from new. With a very low mileage of 2,532 miles, this car is a Volkswagen manufacturer approved vehicle, ensuring it meets high standards of quality. Upon purchase, it will be supplied with a 12 month MOT to confirm its road worthiness, and it also comes with a 24 month warranty for added peace of mind. The vehicle is designed for convenience and comfort, featuring an Exterior Pack Plus that includes an electronic darkening panoramic sunroof and LED headlights. Inside, the interior is equipped with the PBE pack, which includes memory seats, while the comfort package adds climate control, a heated steering wheel, and wireless phone charging. Driving is made easier with adaptive cruise control, and the car offers a large boot space for practical storage. The 82 kWh battery provides a maximum range of 360 miles when new, and while it takes 33 hours to charge fully at home using a 7kW charger, it can reach an 80 percent charge in just 30 minutes at a fast public charging point.
