Description

This 2022 CUPRA Formentor TSI V2 is a well-maintained vehicle that has been kept by only one owner since new. With a recorded mileage of 25,192 miles, this example offers a practical balance of use and condition for its age. Powered by a 1.5-litre petrol engine that meets Euro 6 emission standards, this model provides a capable driving experience, achieving 0-60mph in 8.3 seconds. The Formentor V2 is equipped with a range of features designed to enhance comfort and ease of use on the road. Drivers can benefit from a heated leather multi-function steering wheel that includes gear shift paddles for greater control. Parking is made simpler with the inclusion of park assist, which utilises both front and rear sensors, while the predictive adaptive cruise control with speed limiter helps maintain a steady pace during longer journeys. Inside, the cabin environment is managed by a three-zone climate control system that includes a dedicated control panel for rear passengers, and visibility is supported by LED headlights.
