Description

This 2023 Peugeot 2008 GT is finished in Cumulus Grey and features a 1.2L petrol engine that meets Euro 6 emission standards. As a GT trim model, it comes equipped with a range of technology designed to assist the driver, including road sign recognition and recommendation with a head up display. Parking is made straightforward through the inclusion of front parking sensors with parking assistance, alongside the Visio Park 1 system, which provides a 180 degree colour reversing camera. Connectivity is also integrated, with a Bluetooth telephone facility included as standard. The vehicle offers a practical balance of performance and efficiency, achieving 48 mpg and maintaining low CO2 emissions. It is also placed in a low insurance group, which can help with running costs. Drivers will find the performance responsive, with the car capable of accelerating from 0 to 60mph in 8.8 seconds. These attributes combine to make this model a sensible choice for those seeking a modern vehicle that manages to be both economical and capable on the road.
